Anyone succeeded to do checkpointing on the live CD?

I can not understand why I failed even on live CD!.

--- Okajima.

The Live CD below fails in live migration....

(And this is the reason I can not try file deleting during live migration.)

http://wiki.openvz.org/Download_live_CD

http://download.openvz.org/livecd/KNOPPIX_V5.1.1-OPENVZ-CD-2_007-01-04-EN.iso

Here is a log from VMware 5.5.4, but I have reproduced this on a real PC also.
