Hello,

i've packed these tools (vzctl 2.7.0-26 and vzquota 3.0.0-2) in a Debian package. For Debian 3.1 aka "Sarge" and only for i386.

Is another, who need this ?

Yours,
Thorsten Schifferdecker

Thorsten,

yes, it was requested quite often.
Can you give it for download with small instruction how we can build them in future? We will make them publicly available then.

Hi,

Great that somebody finally did it!

Can you provide the sources as well? It looks like only binaries are
available currently.

Regards,
Kir.
