The patch titled

Kill unused session and group values in rocket driver
has been added to the -mm tree. Its filename is
kill-unused-session-and-group-values-in-rocket-driver.patch

*** Remember to use Documentation/SubmitChecklist when testing your code ***

See <http://www.zip.com.au/~akpm/linux/patches/stuff/added-to-mm.txt> to find out what to do about this

Subject: Kill unused session and group values in rocket driver
From: Sukadev Bhattiprolu <sukadev@us.ibm.com>

The process_session() and process_group() values are not really used by the driver.
