From: Sukadev Bhattiprolu <sukadev@us.ibm.com>
Subject: [RFC][PATCH 12/14] Remove copy_pid_ns function

Remove the copy_pid_ns() function as we have decoupled pid namespace from nsproxy and also because we currently disallow unsharing of pid namespace.

Where do we remove the call to copy_pid_ns from nsproxy?
Hmm. In the previous patch.

It probably makes sense to combine those two patches together
as it is a single logical change.

Eric
