
Subject: [RFC][PATCH 4/4] container freezer: do not unfreeze a frozen container when the system is resumed

Posted by [Cedric Le Goater](#) on Wed, 20 Jun 2007 15:08:03 GMT

[View Forum Message](#) <> [Reply to Message](#)

From: Cedric Le Goater <clg@fr.ibm.com>

When a system is resumed after a suspend, it will also unfreeze frozen containers.

This patchs modifies the resume sequence to skip the tasks which are part of a frozen container.
