Pavel,

Pls ack this if you agree.

Suka

Subject: [PATCH 2/5] Rename child\_reaper function.

From: Sukadev Bhattiprolu <sukadev@us.ibm.com>

Rename the child\_reaper() function to task\_child\_reaper() to be similar to other task\_\* functions and to distinguish the function from 'struct pid\_namespace.child\_reaper'.

Signed-off-by: Sukadev Bhattiprolu <sukadev@us.ibm.com>
