
Subject: [net-2.6.24][NETNS][patch 0/3] fixes for the core network namespace

Posted by [Daniel Lezcano](#) on Wed, 12 Sep 2007 12:38:11 GMT

[View Forum Message](#) <> [Reply to Message](#)

The following patches fixes some compilation errors and boot problems related to the network namespace patchset.

They apply to net-2.6.24

Subject: [net-2.6.24][NETNS][patch 1/3] fix export symbols

Posted by [Daniel Lezcano](#) on Wed, 12 Sep 2007 12:38:12 GMT

[View Forum Message](#) <> [Reply to Message](#)

From: Daniel Lezcano <dlezcano@fr.ibm.com>

Add the appropriate EXPORT_SYMBOLS for proc_net_create, proc_net_fops_create and proc_net_remove to fix errors when compiling allmodconfig

Signed-off-by: Mark Nelson <markn@au1.ibm.com>

Acked-by: Benjamin Thery <benjamin.thery@bull.net>

Subject: [net-2.6.24][NETNS][patch 2/3] fix loopback network namespace initialization

Posted by [Daniel Lezcano](#) on Wed, 12 Sep 2007 12:38:13 GMT

[View Forum Message](#) <> [Reply to Message](#)

From: Daniel Lezcano <dlezcano@fr.ibm.com>

The core patchset of the network namespace sent by Eric Biederman does not do dynamic loopback creation. So there is no call to alloc_netdev_mq which fills the network namespace field of the netdevice.

This patch assign the loopback to the init network namespace.

Subject: [net-2.6.24][NETNS][patch 3/3] fix bad macro definition
Posted by [Daniel Lezcano](#) on Wed, 12 Sep 2007 12:38:14 GMT

[View Forum Message](#) <> [Reply to Message](#)

From: Daniel Lezcano <dlezcano@fr.ibm.com>

The macro definition is bad. When calling next_net_device with parameter name "dev", the resulting code is:

struct net_device *dev = dev and that leads to an unexpected behavior. Especially when llc_core is compiled in, the kernel panics at boot time.

The patchset change macro definition with static inline functions as they were defined before.

Applied to net-2.6.24, thanks.

Why aren't you signing off on these patches? Please
do so in the future.

Because "From: " usually means you are the patch author, and I can't
tell who wrote these patches, you or these other people listed in the
signoff area.

Sorry for that, I will take care of that next time. Thanks.
