I see that 2.6.23 has the CFS in it - has anyone written a CPU controller for that scheduler yet?

Sam.

Hi Sam,

Yes, it has been written. It is slated to go in 2.6.24 as part of the CFS-devel tree. <http://lkml.org/lkml/2007/9/24/412>

The latest broken-out mm has the cgroups interface as well.
