Hi...!

I was working with OpenVZ and it is a wonderful product. I want to know whether OS template for SME 7.2 is available other wise please guide me to create an OS template for SME server 7.2.
Thanks in advance

Regards
Nithin.K

Hi

Have you managed to get an OpenVZ template for SME 7.2?

Otherwise, being new to OpenVZ, how do I create a template myself? The info on the Wiki isn't very clear & helpful to me

Hi...!

I couldn't able to create Template for SME 7.2 but insted of that I made my Hardware node as SME 7.2 and install all the guest operating system above on it and it worked fine. Now I am using it for web hosting purpose and running many software application. you can try like that.

All the best.
