Pavel,

do you have some time to refresh on -mm and resend this set of
patches ? If you don't, I can give it a try.

I'd like to base some of my patches on top of them.

Thanks,

C.

I can, but I think that Andrew is busy with merging the
patches into 2.6.24 window, so I'd like to wait for things
to settle down and re-send all the patches that were not
accepted by Andrew yet.

However, if this work is required rather badly, I can send
the patches tomorrow morning.

This sounds reasonable.

let's wait for a 2.6.24-rc1-mm1 before sending anything new.

If I had a tmp version, I could get prepared, but this can
wait next week. nothing to hurry about.

Thanks,

C.
