hi
is there any way to enable ppp module on ovz ?
and do you know if this is enabled on virtuzzo ?
thanks

I'm sorry, but you can't use pptp protocol from inside VE because the ppp module is not virtualized at the moment, you can check the bug http://bugzilla.openvz.org/show_bug.cgi?id=268

At the same time if you need ppp to setup a VPN, you can use another VPN implementation - OpenVPN. It does not use pptp, it uses tun/tap devices instead.
<http://wiki.openvz.org/VPN>

Best regards,
Konstantin.
