i use yum install ovzkernel[-smp] .

i use FC4

yum just tells me there is no match

i am using 2.6.11 kernel this is a fresh install of fc4

<http://wiki.openvz.org/Yum>

I think you should add appropriate repo.

do 'ls -ls /etc/yum.repos.d/*

and paste the output

i found the issue it was with the main repos the propper name for the ovzkernel is just vzkernel i have now tried that and it works with no issues. i updated the wiki to show the fix.
