hi,

I have a openvz vps in a CentOS 4.4 with DirectAdmin, when I add a new user I got this error:

setquota: Cannot get info for user quota file from kernel on /dev/simfs: No such process setquota:
Can't initialize quota on

I am using: 2.6.9-023stab044.4-smp #1 SMP Mon May 28 23:18:17 MSD 2007 i686 i686 i386
GNU/Linux

any help to fix that?

thanks!

hi winger
this bug

http://bugzilla.openvz.org/show_bug.cgi?id=632

in 2.6.9-023stab044.11-smp it fixed upgrade ur kernel

hello,

I try to upgrade bu I got this error:

Error: ovzkernel-smp conflicts with dev < 3.2-7

any help to fix that too?

thank you!
