
Subject: [PATCH net-2.6.25 1/3][ROUTE] Collect proc-related functions together
Posted by [Pavel Emelianov](#) on Wed, 05 Dec 2007 17:04:16 GMT
[View Forum Message](#) <> [Reply to Message](#)

The net/ipv4/route.c file declares some entries for proc to dump some routing info. The reading functions are scattered over this file - collect them together.

Besides, remove a useless IP_RT_ACCT_CPU macro.
