Subject: Fedora Core 5 x86_64 precreated cache
Posted by Roberto Fichera on Fri, 21 Apr 2006 11:09:27 GMT

Hi All,

Does anyone have a downloadable precreated FC5 x86_64
cache. I'm basically starting do configure a new x86_64 box
and since I'm unable to execute the vzpkgcache on such
box I would like to have a precreated one ;-)!

Thanks in advance.

Roberto Fichera.
