Hi gyus,
This problem might sound familiar for many of you. Because I found a little bit of its solution but i
failed to solve it

I am trying this command and it gives this error
[root@localhost ~]# vzyum 101 install php
ERROR: No such OS template: install

I am running centos5 x86_64 and I used the tmplater centos5 x86_64

anyone knows please let me know how to solve it

Thanks a lot

I forgot to ask
which template has php installed in it Thanks
