
Subject: kernel: unregister_netdevice:

Posted by [pulseinternet](#) on Thu, 28 Feb 2008 01:18:52 GMT

[View Forum Message](#) <> [Reply to Message](#)

One of my client VPS is causing this error on my slave server:-

kernel: unregister_netdevice: waiting for venet0 to become free. Usage count = 1

I've moved the VPS to another slaver server and the message is now in the logs for that server.

The message seems to be generated when the VPS is rebooted.

Note the two slave servers involved are using different kernels:-

2.6.18-53.1.4.el5.028stab053.4

2.6.18-53.1.6.el5.028stab053.6
