Is it possible to enable user quotas inside VE?

I have a openvz installed on debian server.

My /etc/fstab;

# /etc/fstab: static file system information.

#

# <file system> <mount point> <type> <options> <dump> <pass>

proc /proc proc defaults 0 0

/dev/sda1 / ext3 defaults,errors=remount-ro 0 1

/dev/sda2 none swap sw 0 0

/dev/hda /media/cdrom0 udf,iso9660 user,noauto 0 0

/dev/sda5 /var/lib/vz/private/100 ext3 defaults,errors=remount-ro 0 1

Hi,

Have you read OpenVZ User's Guide, page 52 (Setting Up Second-Level Disk Quota Parameters) ?

-> <http://download.openvz.org/doc/OpenVZ-Users-Guide.pdf>
