I'd like the ability to clear all the bean counters to 0. Maybe add it to vzctl or something. Is there an easy way to set the bean counters to 0?

It is discussed in details at [http://wiki.openvz.org/UBC\\_failcnt\\_reset](http://wiki.openvz.org/UBC_failcnt_reset)

Still we might reconsider that inability to reset failcnt is a good thing. Feel free to file a bug (with 'enhancement' severity) for that.
