Subject: vzmigrate rsync failure
Posted by ceelian on Tue, 01 Apr 2008 00:13:55 GMT

Hi,

I am not sure if I am the only one with that strange problem.

I execute vzmigrate without any additional options and get this error.

rsync error: some files could not be transferred (code 23) at main.c(977) [sender=2.6.9]
Error: Failed to sync VE private areas

Before this error occurs i get lots of stuff like:
rsync: failed to set times on "/var/lib/vz/private/345/usr/share/vim/vimfiles": Function not implemented (38)

Has anybody an idea why this happens?

thx,
ceelian
