I'm trying to clone a VPS within same HW node. I'm getting the error below. Any help would be really appreciated.

```
vzlocal -C 2001:2004:/vz/private/2004:/vz/root/2004
```

```
Moving/copying CT#2001 -> CT#2004, [/vz/private/2004], [/vz/root/2004] ...  
vzctl_get_veformat(/vz/private/2001):  
Can't move/copy CT#2001 -> CT#2004, [/vz/private/2004], [/vz/root/2004] :  
vzctl_get_veformat(/vz/private/2001):
```
