Hi all,

Are there any good books around concerning linux kernel development -  
with  
up to date infos for new 2.6 features like cgroups?

Hi Dietmar,

for a first glance

[http://git.openvz.org/?p=linux-2.6.24-openvz;a=blob\\_plain;f=Documentation/cgroups.txt;hb=HEAD](http://git.openvz.org/?p=linux-2.6.24-openvz;a=blob_plain;f=Documentation/cgroups.txt;hb=HEAD)

Gruss / Regards,
