Subject: SO Template - CPANEL
Posted by CleberDantas on Thu, 01 Jun 2006 03:02:20 GMT

Hi!

They lack few days for World CUP and Brazil will be champion!

Which the best SO to install cpanel? I lowered template of FEDORA 4 but when it does not have the installed YUM and when I go to install it asks for many dependences.

Thanks!

Use vzyum command from hardware node to install yum inside VPS. It is vzpkg package.
