OS= Centos 5.x 32bit

Linux localhost 2.6.18-92.1.1.el5.028stab057.2PAE #1 SMP Mon Jul 21 21:22:20 MSD 2008 i686
i686 i386 GNU/Linux

I am getting this error
/var/log/message

```
Sep  1 01:50:36 localhost kernel: hdc: status timeout: status=0xd0 { Busy }
Sep  1 01:50:36 localhost kernel: ide: failed opcode was: unknown
Sep  1 01:50:36 localhost kernel: hdc: no DRQ after issuing MULTWRITE_EXT
Sep  1 01:50:36 localhost kernel: ide1: reset: success
Sep  1 02:09:27 localhost kernel: hdc: status timeout: status=0xd0 { Busy }
Sep  1 02:09:27 localhost kernel: ide: failed opcode was: unknown
Sep  1 02:09:27 localhost kernel: hdc: no DRQ after issuing MULTWRITE_EXT
Sep  1 02:09:28 localhost kernel: ide1: reset: success
```

Any idea how can it be fixed.
Thanks
