I found an italian traslation of quick install and other pages of openvz wiki:

Is it possible to add them:

<http://www.valent-blog.eu/2008/10/01/openvz-installazione-rapida/> -> quick installation

<http://www.valent-blog.eu/2008/10/01/openvz-preparazione-della-cache-di-un-os-template/> ->os template cache preparation

<http://www.valent-blog.eu/2008/10/08/gestione-di-base-di-openvz/> -> Container creation

Bye

Hi, I also take to post the URL of my own Spanish translation:

http://docs.icenetx.net/index.php/Debian_OpenVZ

Please just add the pages to wiki.openvz.org, under the It prefix, like this:

http://wiki.openvz.org/It/Installazione_rapida/

When you'll have a few pages I will try to set up multi-lingual link mechanism so English «Quick installation» will refer to your Italian version (and vice versa).
