I'm afraid it's not a proper place for asking such questions.
OpenVZ doesn't allow you to run Windows.

i am getting following error while click on vnc client.
network error: could not connect server ip:5905

i did install yum install vnc-server at vps node and i am able to connect main node by vnc using ip :5901 but it shows blank screen. i can see 5905 port is not open.
i am still unable to connect windows vnc

Hello,

Now we are able to see the windows image on the VPS.

Now just problem is we are not able to use keyboard and mouse in this VPS. anyone can help on this issue.

sachin.
