Hi,

is there a way to specify/change the shell started inside the VE by 'vzctl enter foo'?

Right now, it always starts bash. Not /bin/sh (which is dash for me), nor the shell set up for root in passwd(5) (which is zsh).

Please, look at the code:

<http://git.openvz.org/?p=vzctl;a=blob;f=src/enter.c;h=2ad979e3f6c0fa652908c5adbc2198dc9db663d7;hb=f76ccaaf72d0bd485d72bdd4e34f95f02878c172#l313>

```
execve("/bin/bash", arg, env);  
execve("/bin/sh", arg, env);
```

You may rebuild vzctl if you want.
