Hi,

How can i see which proces is from which user?  
on htop i see process of vps user, but is on root id...  
How to change to see with vps id, not the root?  
if u understand me?!

in attachment u will see all the root process, but they are from vps...

Hi,

try  
# cat /proc/2336/status |grep envID

Hope that helps.

i got only:

Quote:

```
# cat /proc/2336/status |grep envID
envID: 0
```

?

what is container 0?!

]

i start from 101, 102, 103 etc.
