---

im trying to to vzmigrate VE from one HN to another.

I tried using --online and without it.

All vps files are getting transferred but after that i get the following and vE kicks back and stays at the same server.

Transferring from: 2.6.18-92.1.18.el5.028stab060.2PAE

Transferring to: 2.6.18-128.2.1.el5.028stab064.8PAE

Also: Moving under 2gb VE goes well, while moving 2Gb VE and up returns following.

```
rm: cannot remove `/vz/root/470/proc/sys/net/core/rmem_max': Operation not permitted
