Subject: Enable syn cookies on VE
Posted by fernandomm on Mon, 30 Nov 2009 11:28:31 GMT

Hello,

Is there a conf that i can change to enable syn cookies on a VE?

Two of my VEs have been hit by a severe syn flood attack and i couldn't stop it. After searching, i found that i should enable syn cookies to prevent this.

My HN have syn cookies enabled, and when i moved the websites from VE to HN, the attacks stopped.

Any ideas of what can i change?

Thanks,

Fernando.
