I installed the kernel. I haven't booted it yet because I Got these errors. What does this mean? Is it serious?

WARNING: No module ehci-hcd found for kernel 2.6.32-afanasyev.1, continuing anyway
WARNING: No module ohci-hcd found for kernel 2.6.32-afanasyev.1, continuing anyway
WARNING: No module uhci-hcd found for kernel 2.6.32-afanasyev.1, continuing anyway
WARNING: No module ahci found for kernel 2.6.32-afanasyev.1, continuing anyway
WARNING: No module ahci found for kernel 2.6.32-afanasyev.1, continuing anyway

Thanks in advance

Seems like that you doesn't have those modules compiled into your kernel as module or they has been built into the kernel staticly.

Did you run depmod after kernel instalation ?

Hi,

these modules are static built in - not as kernel module:

see kernel config:

```
(...)  
CONFIG_USB_EHCI_HCD=y  
CONFIG_USB_OHCI_HCD=y  
CONFIG_USB_UHCI_HCD=y  
(...)
```

Bye,
Thorsten
