Hi everyone,

i have problem after reinstall my server with vzquotas with space counting. It show me there is 0 used space in container.

System: debian (2.6.18-20-ovz-amd64 downloaded from downloads.openvz.com)

Disks: XFS on RAID1

Versions: vzctl version 3.0.23-1dso1, Vzquota version 2.5.0

host01:~# cat /proc/vz/vzquota

qid:	path	usage	softlimit	hardlimit	time	expire
201:	/mnt/md1/var/lib/vz/private/201					
	1k-blocks	0	20971520	26214400	0	259200
	inodes	1	4000000	4000000	0	259200
101:	/mnt/md1/var/lib/vz/private/101					
	1k-blocks	0	104857600	104857600	0	259200
	inodes	1	4000000	4400000	0	259200
100:	/mnt/md1/var/lib/vz/private/100					
	1k-blocks	0	52428800	52428800	0	259200
	inodes	1	4000000	4400000	0	259200
102:	/mnt/md1/var/lib/vz/private/102					
	1k-blocks	0	20971520	26214400	0	259200
	inodes	1	4000000	4400000	0	259200

host01:~#

You can see, there is zero at usage and that's my problem :).

Interesting is than there is 1 at inodes.

root@vps100:/# df -h

Sorry but vzquota does not work with XFS, you have to stick to ext2/3/4 or reiserfs.

Ahhhh, thank you for your fast reply. Yes, you are right. I have changed ext3 to xfs.
