Is there any way of showing the init scripts' output while booting up a VE? (For example, more of like when you are booting physical server's OS)

There are a few bug reports at the moment:
http://bugzilla.openvz.org/show_bug.cgi?id=477
http://bugzilla.openvz.org/show_bug.cgi?id=979

feel free to share with developers why it is needed in your case.
