---

Hello everyone, iam pretty new to OpenVZ and I wanted to monitor my two Vservers with munin, running on the main machine.

I used the script right on the bottom of this page:  
[http://wiki.openvz.org/Monitoring\\_openvz\\_resources\\_using\\_munin](http://wiki.openvz.org/Monitoring_openvz_resources_using_munin)

I created a file, called it `openvz_` in `/usr/share/munin/plugins` and made `chmod 755` on it and pasted the code for the plugin from the website above.

Then I linked one after another by using

`ln -s /usr/share/munin/plugins/openvz_ /etc/munin/plugins/openvz_physpages`

Now, they are all linked into the plugins folder of munin. I opened  
`/etc/munin/plugin-conf.d/munin-node`

and I entered

```
[openvz_*]  
user root
```

then I restarted Munin and it does not show any values, it just shows "NAN".

This is an extract of the munin log:

```
Oct 20 03:35:04 [4471] - Unable to update Hetzner_Core_i7_Root ->  
Localhost.Hetzner_Core_i7_Root -> openvz_physpages -> 155_clients_your: No such field (no  
"label" field defined when running plugin with "config").  
Oct 20 03:35:04 [4471] - Unable to update Hetzner_Core_i7_Root ->  
Localhost.Hetzner_Core_i7_Root -> openvz_physpages ->  
physpagesstatic_**_***_***_***_clients_you: No such field (no "label" field defined when running  
plugin with "config").  
Oct 20 03:35:04 [4471] - Unable to update Hetzner_Core_i7_Root ->  
Localhost.Hetzner_Core_i7_Root -> openvz_physpages ->  
physpagesstatic_**_***_***_***_clients_you: No such field (no "label" field defined when running  
plugin with "config").
```

Any ideas?

Solved:

I used this one:

[http://wiki.openvz.org/Monitoring\\_openvz\\_resources\\_using\\_munin#Extended\\_plugin\\_from\\_Jan\\_Tomasek](http://wiki.openvz.org/Monitoring_openvz_resources_using_munin#Extended_plugin_from_Jan_Tomasek)

hi, i tried Extended\_plugin\_from\_Jan\_Tomasek too but i dont know how to view the vebc(my plugin name) graph, i open location localhost/munin/localhost/index.html but don't found the vebc graph,

i type "munin-node-configure --suggest" and found the plugin is running. please help how to show the graph
