I need to install Scientific Linux 6 in VE.

All that I have found this is the Scientific Linux 4 in /template/precreated/contrib/.

Could someone share Scientific Linux 6 templates or link to download?

Thanks in advance!

A Scientific Linux v6.0 x86 template has been added to the repository.

<http://download.openvz.org/template/precreated/contrib/scientificlinux-6.0-x86.tar.gz>
