Hello!

i have a problem with the sort function of vzlist. It dont want to sort the leverage correct.

```
vzlist -o leverage,veid -s leverage
```

```
LAVERAGE    CTID
0.66/0.62/0.56  67130
6.23/5.57/5.44  67070
0.01/0.03/0.00  65810
0.00/0.00/0.00  65000
0.00/0.00/0.00  64880
0.00/0.00/0.00  62950
2.76/2.89/2.56  62490
2.21/1.67/1.43  60940
3.15/2.87/2.87  60710
```

It get sorted for veid instand of leverage.

If i do as -o veid,hostname -s hostname it sort the hostnames correct.

Does anybody knows how to get the list sorted for leverage?

Didnt found anything over search function.

Thanks!
