Hello!

i have a problem with the sort function of vzlist. It dont want to sort the laverage correct.

```
vzlist -o laverage,veid -s laverage
```

LAVERAGE	CTID
0.66/0.62/0.56	67130
6.23/5.57/5.44	67070
0.01/0.03/0.00	65810
0.00/0.00/0.00	65000
0.00/0.00/0.00	64880
0.00/0.00/0.00	62950
2.76/2.89/2.56	62490
2.21/1.67/1.43	60940
3.15/2.87/2.87	60710

It get sorted for veid instand of laverage.

If i do as -o veid,hostname -s hostname it sort the hostnames correct.

Does anybody knows how to get the list sorted for laverage?

Didnt found anything over search function.

Thanks!
