The following patch should help. BTW which distro do you use? I thought it is a Gentoo-specific problem...

From: Kir Kolyshkin <[kir@openvz.org](mailto:kir@openvz.org)>

Subject: Fix ndsend compile with Gentoo linux-headers-2.6.19.2-r2  
X-Git-Url: <http://git.openvz.org/?p=vzctl;a=commitdiff;h=248b85a47a0e5ad4c93140eaabc23c936821dd26>

Fix ndsend compile with Gentoo linux-headers-2.6.19.2-r2

The problem is abovementioned linux-headers change linux/if.h file in a way that it does no more include linux/types.h, thus unknown types like \_\_u8 etc.

We add this include explicitly and fix the problem.
