
Subject: [patch 05/10] add "permit user mounts in new namespace" clone flag
Posted by [Miklos Szeredi](#) on Thu, 12 Apr 2007 16:45:46 GMT
[View Forum Message](#) <> [Reply to Message](#)

From: Miklos Szeredi <mszeredi@suse.cz>

If CLONE_NEWNS and CLONE_NEWNS_USERMNT are given to clone(2) or unshare(2), then allow user mounts within the new namespace.

This is not flexible enough, because user mounts can't be enabled for the initial namespace.

The remaining clone bits also getting dangerously few...

Alternatives are:

- prctl() flag
- setting through the containers filesystem
