The patch titled
    Kill unused sesssion and group values in rocket driver
has been removed from the -mm tree. Its filename was
    kill-unused-sesssion-and-group-values-in-rocket-driver.patch

This patch was dropped because it was merged into mainline or a subsystem tree

---
Subject: Kill unused sesssion and group values in rocket driver
From: Sukadev Bhattiprolu <sukadev@us.ibm.com>

The process_session() and process_group() values are not really used by the
driver.
