Hi,

Quote:Also notice how there are double entries or phrases below.
It's normal. Once it's printed in /etc/init.d/network and the other case in
/etc/sysconfig/network-scripts/ifdown-venet

Quote:Thus it appears something is wrong here.
I'm sorry but I can't understand what exactly is wrong?
net.ipv4.ip_forward must be equals to 1, net.ipv4.conf.all.rp_filter must be the same.
