I have followed the Centos Upgrade 4.x to 5.0 located here
http://wiki.openvz.org/Centos_Upgrade_4.x_to_5.0
and everything is working fine except when I do vzyum CTID upgrade

Total download size: 162 M
Is this ok [y/N]: y
Downloading Packages:
warning: rpmts_HdrFromFdno: V3 DSA signature: NOKEY, key ID e8562897

Public key for chkconfig-1.3.30.1-2.i386.rpm is not installed

How can I get the correct keys for the files?

Thanks,
timgerr
