Hi.

Quote:arpsend: 74.222.13.149 is detected on another computer : 00:d0:02:c0:58:00

This means another computer with MAC 00:d0:02:c0:58:00 has the same IP (74.222.13.149) configured.

EDITED: n00b_admin, you're surely right and my message is a dup of yours. i just have not seen your reply cause this request in "reported queue". Sorry for that.
