Hello,

Quote:

I can't find following package on repo;

It's a bash built-in function.

Re: pushd /vz/private/\$OLDVE;

the directories don't exist. Whether creating them?

The first line of the wiki page:

Quote:

OLDVE=222 NEWVE=333

In your case OLDVE should be 101, NEWVE - 102.
