Hello, I also observe this a bit strange behaviour,  
here is a workaround, that helped in my case:

Instead this step

Quote:

```
ifconfig veth101.0 up
```

I did

Quote:

```
ifconfig veth101.0 0.0.0.0
```

This is actually the same, but for some reasons, if we do the  
second command veth0 appears in /proc/sys/net/ipv4/conf/.

Good luck.
