Driver for 53c1030 is in both kernels: 2.6.8, 2.6.16...

Well, please, can you send here initrd images of both kernels:

initrd-2.6.16-026test014.4.img

initrd-2.6.8-022stab077.1.img

And logs during boot 2.6.8-022stab077.1 kernel and 2.6.16-026test014.4 kernel, if possible.

Thank you!
