We are using kernel
Linux localhost.localdomain.com 2.6.18-164.11.1.el5.028stab068.5 #1 SMP Mon Mar 15 19:26:36 MSK 2010 x86_64 x86_64 x86_64 GNU/Linux

whenever the syslod is restarted the server node is rebooted.

#rep -C 10 restart /var/log/messages
Mar 28 04:02:04 localhost syslogd 1.4.1: restart.
