I see error:[host:/dev/cgroup]$ echo 693 > hello-test/tasks
-bash: echo: write error: No space left on device
[host:/dev/cgroup]$ pwd/dev/cgroup

But the user process is up and running..

[host:/dev/cgroup]$ ps aux | grep procroot

693 0.0 0.4 34720 1112 ttyS0 Sl 19:11 0:00 /opt/bin/myproc -ext

Also the cgroup exists and valid..

[host:/dev/cgroup]$ ls | grep hello-test
hello-test

What above error mean and any suggestions ?
Please email.

Thanks,
CM
