- 1) it's not related to USB
- 2) it's related to FUSE
- 3) I've done FUSE under OpenVZ containing LTSP like this:

```
# HN: load kernel module, configure passthrough
echo fuse >> /etc/modules
modprobe fuse
vzctl set 123 --devnodes fuse:rw --save
```

```
# VE: check permissions
ls -l /dev/fuse /usr/bin/fusermount
```
