Subject: [PATCH v2 0/3] cpuacct cgroup refactoring
Posted by Glauber Costa on Mon, 28 Nov 2011 16:45:16 GMT
View Forum Message <> Reply to Message

Hi,

This is the same series I've already sent before. Just sending again
after the conflict with the code that was in tip.git

Best regards,

Glauber Costa (3):
  Change cpustat fields to an array.
  Reuse cgroup's parent pointer
  cpuacct.stat: re-use scheduler statistics for the root cgroup
